

The following facilities protocols will be in place at all events held during the 2022 EIVA volleyball season:

- No player, coach, spectator, or employee may enter the facility with any COVID-19 symptoms specified by the CDC.
- Masks are recommended for spectators when physical distancing cannot be maintained and for those who are at increased risk for illness.
- Once an event is over, please exit the facility as quickly as possible to allow staff enough time to disinfect surfaces before the next event.
- Each participant should have their own water bottle. Drinking fountains will not be available.
- Please be aware that some facilities may have stricter protocols and those take precedence over EIVA protocols. All facilities should have their policies listed.
