Pool Play, 4 Teams

Matches consist of two sets to 25, no cap.

Pool place is determined by win/loss record. In the event a two-team tiebreaker is needed, use head-to-head result, then total point differentials, then a coin flip. In the event a three-team tiebreaker is needed, use total point differentials, then a coin flip.

Point differential is the point difference in a set score between two teams. For example, if team 1 wins a set over team 3 by a score of 25-20, record +5 for team 1 and -5 for team 3. At the end of pool play, sum the point differentials for each team to get a total point differential amount.
